Hi Ms Curtis,

I have many concerns about the Town parking lot expansion and new library.
I will be sending along a few concerns separately so they will send.
The new lights installed around the Town office building they light up everything.
Could you forward the photo's and video's to the planning board? And have them shown on the website.
I will be sending a few. The size is easier to send small.
Could you let me know if you can few the video.

Thank you,
Scott Gallant
