Subject: RE: Notification of Preliminary Complete Application - North Fire Subdivision
Date: Friday, January 21, 2022 2:50:28 PM

As long as the dry hydrant is maintained, which it appears that it will be, I do not foresee any concerns for the Fire Department.

Subject: Notification of Preliminary Complete Application - North Fire Subdivision

Dear Road Commissioner and Fire Chief,

The proposed North Fire Minor Subdivision Amendment Application has been found preliminarily complete. It is a proposed 3-lot subdivision on 8 acres and will create one new lot to be accessed by a private road which will be improved from the existing driveway.

Application materials are available below. Please let me know if you have any concerns. It will be given a public hearing at the Planning Board meeting on January 27th.
