RE:	**Interim Parking for Non-motorized Boat Launch**		

At this time the only parking to be developed with the non-motorized boat launch is the designated handicap parking spots. As you will see from the new photographs, there is amply room available on-site for interim non-motorized boat launch parking. The existing gravel areas are buffered with existing vegetation to our Railroad Avenue neighbors. If necessary, the Town can create parking areas using temporary signage and/or barriers during the peak season. The full parking area will not be developed until it is designed and permitted.
