

## CPC Open Space Plan

### Vision Statement:

The Town of Bowdoinham will develop an open space plan that contributes to retaining the town's rural character and natural resources by protecting natural habitats, outdoor recreation areas and trails, scenic landscapes, historic sites, agricultural land and wildlife habitats. This plan is not intended to stop the development of new housing and infrastructure, but rather to ensure that such growth is managed in a way that is consistent with the goals of our Comprehensive Plan to protect and retain Bowdoinham's rural character and natural resources.
