Dear Project Applicant:

The Maine Department of Transportation (MaineDOT) is pleased to inform you that your municipality's grant application for Bicycle/Pedestrian Program Funding has been approved, and your community has been selected to receive state transportation funding assistance at this time for the **Design** and **Right-of-Way** activities on your project.

Your community's project has been included in MaineDOT's 2024-25-26 Capital Work Plan, pending final authorization of state funds. MaineDOT has currently programmed up to **\$154,240.00** in state transportation funding for the preliminary design, survey/mapping, right-of-way work and the construction costs for your project, contingent upon the minimum required local match of **\$38,560.00**. The funding amounts approved were based on the preliminary estimates provided to the Department as part of your application and MaineDOT's internal discussions which may have adjusted these amounts.

Currently, MaineDOT intends to administer this project. Please confirm on the form below that you agree this will be a MaineDOT managed project. Requirements for state and federally funded locally administered projects may be found on the MaineDOT website: <http://www.maine.gov/mdot/lpa/>. Please keep in mind that MaineDOT staff time required to review project plans is part of the costs allocated to project funding. Furthermore, please note that funding for this project, is contingent upon MaineDOT receiving adequate state transportation funding to support it, and MaineDOT reserves the right to withdraw funds from this project for any reason.

Your Project Manager will be **Daniel Loring**, who will contact you about the next steps. Until then, please feel free to contact me with any questions you may have about the project or the next steps in this process.

The following information details your project's estimated funding amounts and the specific information and project details we have within our system. Please review and verify the following information:
