Client Notes

Hello Tobey, here's the proposal for taking down that tree over on Ridge Road. Probably the best idea is to use the crane to minimize damage to the ground. As long as we can block that road off for a few hours, we should be able to get it down and out of there no problem. Let me know your thoughts. Have a great day!

All work will be completed in accordance with these plans unless subsequent changes are agreed upon in writing. Balances not paid by the due date are subject to late fees.
