They will be completing the Center Street retaining this week. The Ridge Road retaining wall is scheduled for the end of June after school is out for the summer.

MDOT is currently working on our speed limit requests, I'll provide additional information once they complete their process. Our speed limit requests are attached.

We expect to go out to bid for Back Hill Road and Spring Street reconstruction at the beginning of May. Funding for this project will be contingent on Town Meeting budget approval.

We will be sending out our fuel bids after we have the results of GPCOG's bid process. They have postponed their bid opening until May 22nd for transportation fuels and June 15th for heating fuels due to recent events in the Middle East and price uncertainty in global oil markets.
